

Project Abstract

The purpose of this project is to continue development of the CirclesU app developed in last years capstone group. We were tasked to implement “Sign on with Google”, separating Circle data, fixing and creating editable profile pages, and finalizing Incognito Mode features.

Sign in with Google

Circles (from same location)

Future Improvements

- Edit to look more like wireframes
- Implement Private Messaging service

Challenges

- Learning existing application/system structure
- Mandatory Expo SDK upgrade troubleshooting

Still to Complete

- Finalize login addition
- Finalize profile pages
- Remove posting for Incognito Mode

Sponsors

- Parker Wallace
- Keith Armstrong

Tools Used/Leaned

- Expo
- React Native
- NodeJS

- Pranjal Dhungana
- Blake Becker
